*"Since my more than 30 years in ballooning and participation in competitions and meetings in all parts of the world, it was one of the most coherent and loveliest events. The main point was to get in touch with the land where we were invited. I never will forget the Land of Lapus."*

Sepp Scherzer, Austria

**#festivalofjoy**

Bringing together two enchanting cultures: Romanian traditional village life and hot air ballooning. The closing party is on a 400 sqm wooden dance-floor around a 7 metre totem, the symbol of this land.
